## OATH OF DECLARATION:

### **HEALTHY PROSTATE FORMULA**

Published scientific literature, ingredients in our Healthy Prostate Formula, such as Saw Palmetto

extract is effective in alleviating symptoms of prostate enlargement in most men. (Reduction of

nocturnal urinary urgency, Increased urinary flow rate, Reduced residual volume in the bladder,

Reduction in uncomfortable urination symptoms)

Pygeum extract has been shown to specifically inhibit prostate cell proliferation by blocking the binding

of dihydrotestosterone (DHT) and other growth factors to prostate cell membranes. Pygeum has anti-

edema effects that shrink the prostate gland significantly. Recent studies show it also inhibits the

proliferation of prostate cells, by interfering with the activity of the enzyme kinase C that is needed by all

rapidly growing benign and malignant cells.

Urtica dioica has been shown to reduce the symptoms of benign prostatic hypertrophy by 86 percent

after three months of use.
